ADNAN ABEDIN

London | +44 7490 389927 | adnanabedin.0714@gmail.com

PROFILE

Final-year Computer Science with Cyber Security student with experience in Python, Java, IT support and Excel data analysis. Seeking graduate roles in software, IT and digital technology.

EDUCATION

University of Greenwich **London, United Kingdom**

BSc Computer Science with Cyber Security *2024 - 2027 (expected)*

Current degree average: 2:1

Relevant study: Advanced programming, software engineering, networking and information security

TECHNICAL SKILLS

Programming: Python (OOP), Java, HTML; CSS (beginner)

Data analysis: Microsoft Excel, regression analysis, charts and interpretation of results

IT and security: Freshdesk, troubleshooting, networking fundamentals, access control and risk assessment

TECHNICAL PROJECTS

Role-Based Access Control System | Java | Group project

- Contributed to a security application that controlled resource access through user roles and permissions.
- Worked with Java Generics, design patterns, audit logging and JUnit testing to support access-control decisions.

Family Tree Application | Python

- Built an interactive Python application using object-oriented programming to organise family relationships and manage data.

London Rental Data Analysis | Excel

- Analysed rental data and compared regression models using bedrooms, bathrooms and distance as explanatory variables.
- Used charts and model results to interpret relationships and explain findings in a coursework report.

WORK EXPERIENCE

Charles Tyrwhitt | Sales Assistant **Oct 2026 - Present**

- Provide attentive customer service, helping customers choose suits, shirts, ties and accessories.
- Cross-sell complementary items and explain product options to support upselling and complete outfits.
- Develop product knowledge and learn to measure customers to recommend suitable sizes and fits.

Self-Employed | Private Tutor **Aug 2022 - Present**

- Deliver tailored SATs and GCSE Mathematics and English tuition through structured lessons and revision.
- Helped learners exceed predicted grades, including improvements from C/D grades to A-grade outcomes.

WHSmith - St Thomas' Hospital | Sales Assistant **Jul 2023 - Sep 2026**

- Handled customer enquiries, cash transactions and stock management in a busy hospital retail environment.

Big Education | IT Support Technician Placement **Jun 2026 - Jul 2026**

- Resolved hardware, software and network issues for staff and students, helping minimise disruption to lessons.
- Managed requests in Freshdesk, prioritised incidents and documented hardware faults for escalation.

Sports Direct | Retail Assistant **Aug 2022 - Sep 2022**

- Assisted customers with purchases and maintained stock and shop-floor displays.

CERTIFICATIONS AND LANGUAGES

Certification: Cisco Networking Academy - IoT and Digital Transformation (2025)

Job simulation: Forage Datacom - Cyber Security Operations (2026)

Languages: English and Bengali (fluent); Spanish, Hindi and Urdu (beginner)
